### De Luxe Line Binders of High Quality

**SECTIONAL POST BINDERS** are intended for continuous service. They should be as perpetual as your loose leaf system. Why not buy them with these facts in mind? A small saving on your purchase is quickly lost in the cost of frequent repairs and replacements and in the waste of your time. The best are always the cheapest in the long run.

We illustrate here some of De Luxe Sectional Post Binders which are sold with a guarantee of service and satisfaction. These binders cost you no more than the ordinary kind, without the guarantee. Look for the De Luxe Label. It insures the finest materials and workmanship combined with clever, dependable mechanisms.

**PEERLESS TOPLOCK BINDERS** are instantly locked or unlocked without a key. Push the slide button to the left and you release the locks, permitting the removal of the top cover; push it to the right and the double grip locks set against the posts, holding the cover securely.

The solid aluminum end plugs are driven into the tubular steel cases after the binding material is tucked in, thus holding the leather or canvas securely in place and preventing it from loosening at the hinge. This is a distinctive feature of Peerless Binders which is well worth your investigation. You will find that the ordinary kind of sectional post binders usually wear out most quickly at the ends of the metal frame where the binding material covers the metal. Peerless Aluminum End Binders cost more to make than the ordinary kind but you buy them at the same price.

Carried in stock in twenty-six sizes, with both 5-16 and 3-8-inch diameter posts, covering all standard sheet sizes. The illustration in the center shows four grade bindings.

Grade 1—Russia and Corduroy, Metal Hinge.

Grade 2—Russia and Khaki Canvas, Metal Hinge.

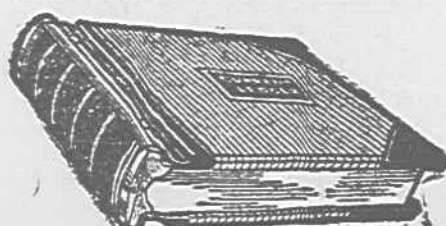

(Not carried in stock)

Grade 3—Full Khaki Canvas, double boards, Metal Hinge.

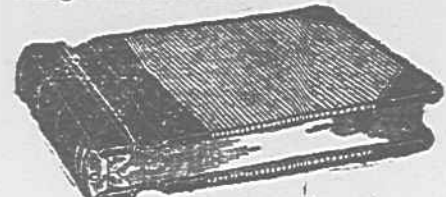

Grade 4—Full Khaki Canvas, single boards, Canvas Hinge.

**PEERLESS ENDLOCK BINDERS** are locked and unlocked by a key, inserted in the end of the metal case. In other respects these binders are exactly the same as the Peerless Toplocks.

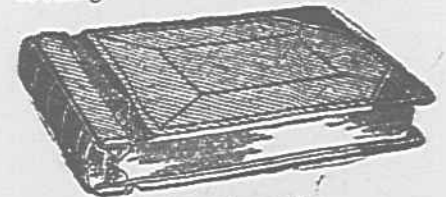

### Loose Leaf Ledger Outfits

**The DeLuxe**  
Russia and Corduroy Binding  
The acme of perfection. Complete outfits from \$27.25 to \$32.75. Twenty forms of ruling to choose from.

### Star Sectional Post Binder

**STAR SECTIONAL POST BINDERS** have been the standard for many years. They are carried in two styles of mechanism, the Toplock and Endlock. Cushions of soft rubber at the ends of the metal case protect the binding material and prevent the metal from wearing through to mar your desk. The locking mechanisms are the same as those in the high grade Peerless Binders. Carried in stock in thirty sizes with both 5-16 and 3-8 inch posts, covering all standard sheet sizes and gauges.

The binding is heavy weight slate colored army duck with corners of black levant grain cowhide over heavy seasoned binders boards.

**THE STYLE MK** is an inexpensive Keylock Sectional Post Binder intended for use as a storage binder where sheets are frequently inserted or removed. It is also suitable for current work in systems which have a number of semi-active forms. The mechanism is similar to that in the Star Endlock Binder, described above, but it has a solid steel base metal without the rubber ends. Bound in medium weight slate colored army duck with plain rounded corners.

**THE STYLE M BINDER**, for storage purposes, has always been a most popular device. At the end of the year, the sheets are removed from the current binders of the Star and Peerless type and placed in these less expensive covers, before they are finally stacked away in the storage vault. Flush top cap screws, with heads which countersink into the top metal, permit even stacking and prevent scratching the desk. Carried in stock in twenty-four sizes with both the 5-16 and 3-8-inch posts, covering all standard sheet sizes and gauges. Bound in medium weight slate colored army duck with plain rounded corners.
